

Do you know about Assistive Technology?

Assistive Technology (AT) is an item or a piece of equipment that is used to increase, maintain, or improve the functional capabilities of individuals with disabilities in all aspects of life, including school, at work, at home and in the community.

Assistive technology ranges on a continuum from low tech (walkers and bath benches) to high tech (using your smart phone to turn on and off your lights).

Come visit Legacy Link's Assistive Technology Lab to experience AT yourself!
We have over 75 items on display.

The AT Lab is open to the public by appointment only.

Please call Ginger Ragans at 770-538-2641 for more information or to schedule an appointment.
